Take Care Of Texas OFFERS TIPS TO CONSERVE WATER

Five Ways You Can Save Water Inside Your Home This Summer.

Replace Your Toilet
saves 13,000 gallons
If you have an old toilet, a newer, more efficient one can save 13,000 gallons of water a year. That's about \$110 in savings per household.

Install Water-Efficient Showerheads and Faucet Aerators
saves 2,900 gallons
A WaterSense-labeled showerhead uses about 2,900 gallons less water per year than a standard showerhead. And replacing old, inefficient faucets and aerators can save another 700 gallons of water per year.

Use the Dishwasher Wisely
saves 3,870 gallons
Scrape dirty dishes instead of rinsing them. Running a dishwasher with a full load on "light wash" saves more water than hand washing dishes. An ENERGY STAR dishwasher is about 30% more efficient than a standard model and saves about 3,870 gallons over its lifetime.

Trade Up to an ENERGY STAR Clothes Washer
saves 3,000 gallons
A full-sized ENERGY STAR clothes washer saves 3,000 gallons of water per year. They also use about 25% less energy which could save you \$45 per year on your utility bill.

Fix Leaks
saves 3,000 gallons
A faucet leaking at a rate of one drop per second can waste up to 3,000 gallons of water per year. That's the amount of water needed to take more than 180 showers!

POLICE • COMMUNITY PARTNERSHIPS

The City of Haslet together with the Tarrant County Sheriff's Office will host National Night Out on Tuesday, October 3, 2017 at Haslet Community Park from 6-8 pm.

National Night Out is an annual unique crime/drug prevention, community-building campaign that promotes law enforcement-community partnerships and neighborhood camaraderie to make Haslet a safer, better place to live. Together, we are making that happen. National Night Out enhances the relationship between neighbors and law enforcement while bringing back a true sense of community and provides a great opportunity to bring police and neighbors together under positive circumstances.
