## Full Depth Reclamation and Roller Compacted Concrete Streets

---

Construction will be taking place in the Brentwood Park and Haslet Park subdivisions. The limits of the projects are:

Brentwood Park: All streets

Haslet Park: Odessa, Schreiber, and Berry from FM156 to James.

## Project Updates 7/6/18

---

- Work will begin in Brentwood Park on July 9, 2018 and in Haslet Park on July 16, 2018 with the removal and stabilization of the base of the streets.
- Project working time is 8am to 6pm weekdays and occasional Saturdays during the project. Please limit travel during these times. At times access to your property may be cutoff. **Emergency services will still be able to reach your property.**
- When driving on the surface there is a STRICT 5 MPH speed limit. This is to protect the surface from damage and your vehicle.
- Limit your turning movements to as wide as possible to protect the surface.
- Please label your trash cans with your address. City of Haslet Employees will be picking up the trash cans on your normal pickup day and returning them to your address.
